

Pinarc employees are able to access generous Salary Packaging.

Salary Packaging, also known as salary sacrifice, is an ATO approved way of increasing your take-home pay by reducing the amount of income tax you pay. This is done by paying for items such as motor vehicles, mortgage, or other purchases from your pre-tax salary (or Gross Income)

As an example, an employee earning \$45 000 p.a can save around \$5000 in tax*

Employees can salary package the following:

- **General Expenses**, up to \$15900 per year eg. Mortgage repayments, rent, credit card repayments, utility bills, and rates
- **Entertainment Benefit**, up to \$2650 per year eg. Food and drink purchases from restaurant and accommodation
- **iPad, tablet, Laptop**, up to one item per year if it's primary use is for your employment
- **Novated Lease**, to purchase a motor vehicle for personal use

Salary packaging has different implications depending on individual circumstances.
