

Temporary Transformation Payment

What has changed?

- The Temporary Transformation Payment (TTP) is an additional cost providers can charge as they continue to transition to working under the NDIS.
- The TTP is a charge on top of the base rate price limit for attendant care and community and centre-based activities.
- Before we can apply the TTP to prices we charge, we must inform you and confirm your acceptance of the new price.

How does it affect me?

- All plans are built to support your reasonable and necessary needs.
- We will contact you if we propose to claim the additional TTP loading.
- TTP is set at 7.5 per cent of the support cost and will reduce by 1.5 per cent each year. This means TTP in 2020-21 will reduce to 6 per cent.
- If you had an NDIS plan in place before 1 July 2019, an extra amount was added to your plan to take into account price changes implemented on 1 July, including TTP.
- If you have an NDIS plan put in place after 1 July 2019, your plan does not include funding specifically for TTP but your core budget is flexible and should be able to accommodate TTP.
- The NDIA has a process that monitors utilisation of NDIS plans.
- If this process identifies a plan with high utilisation that might run out of funds before the plan end date, the NDIA will contact the participant to initiate an unscheduled plan review so you will continue to receive your supports without disruption.
- You can discuss your situation with LACs and Support Coordinators. They can help you meet your support needs within your budget. They can also discuss your options to request a plan review if necessary.

Non face-to-face (NFTF) time

NFTF time was introduced in the July update of the NDIS price guide. NFTF time is targeted at customers who receive 1:1 staff support. Pinarc has included this as part of the cost estimate to cover the time taken with activities when the customer is not present. Pinarc will use the NFTF time to undertake the following activities:

- Completing observation notes
- Handover, customer updates/progress
- Report writing internal and external
- Incident reports – internal/external
- Debriefing and completing risk assessments
- Behaviour support plan review and feedback
- Support activities conducted on behalf of the customer

Costs for transport for activities

- To run a Pinarc bus its cost us (petrol/registration/insurance/maintenance) \$1.32 per kilometre.
- The cost is then divided by the number of customers who are in bus; for example, if you are the only customer on the bus you will be charged for every kilometre travelled at \$1.32.
- If you are in the bus with 2 other customers the \$1.32 per kilometre is divided by 3, so the cost per kilometre would then be \$0.44.
- These costs will be invoiced to you directly for payment at the end of each term.

Support Category Number	Support Category Name	Support Item Number	Support Item Name	Support Item Description	National Non-Remote (MM 1-5)	Program area
