

Parent Support Program 2024

Providing free individual and group-based information and support parent carers of children with disabilities. You do not have to be using any other Pinarc services or have an NDIS plan.

Individual support:

We provide information and support to individual parents and carers of children with disabilities. Parent/guardian carers can call or email with requests for information or support. Carers registered with the program also receive monthly updates about upcoming events and activities for children with disabilities and their families.

Support Groups

We facilitate and support several parent support and social connection groups across the region.

Events

We run information sessions and workshops for carers. Through the Support for Carers program, we also run social activities for carers and families.

The Pinarc Parent Support Program is supported by the Victorian Government.
