

Pinarc Equipment Clinic

The Pinarc Equipment clinic provides short-term assessment and prescription of assistive technology to support safe mobility, transfers and independence in daily activities.

How we can help:

- **Assess:** We visit your home to discuss your goals, priorities and see how your life can be made easier.
- **Trial:** We will trial a range of equipment options to see what fits best, based on your goals, everyday routines and lifestyle.
- **Prescribe:** All reports and documentation is completed, ready for NDIS submission.
- **Train:** We support the delivery and fitting of equipment and show you and your carers how to use it safely.

Our Occupational Therapists and Physiotherapists are available Monday to Friday. Appointments and equipment trials can be booked in your home, at the equipment showroom or at our clinic.

What can be prescribed?

Equipment that supports mobility, bathroom safety, beds and mattresses, seating and transfers, daily living aids and access to leisure activities.

How Much Does it Cost?

Therapists charge a rate of \$193.99 per hour (Occupational Therapy) and \$183.99 per hour (Physiotherapy).

How do I register:

Call 1800 746 272 or complete the referral form on our website.
